Dr Jerry Wu is a board-certified plastic surgeon in private practice at the Vendome Aesthetic Medical Center, Taiwan. He is currently the Supervisor of the Taiwan Society of Aesthetic Plastic Surgery and the Secretary-General of the Asian Society for Breast Plastic and Reconstructive Surgery.

Dr Wu graduated from School of Medicine, National Taiwan University, Taipei, in 2003 and completed his Plastic Surgery Residency at Linkou Chang-Gung Memorial Hospital, Taoyuan, Taiwan in 2009. He pursued his fellowship in Breast Reconstruction at Chang-Gung Memorial Hospital and became the Associate Director of its Plastic Surgical Residency in 2011. Through his service at the hospital, he received his Assistant Professorship in 2016 and became the Director for both the Breast Reconstruction Center and Plastic Surgery Intensive Care Unit in 2015. He ventured into private practice in 2017 and now focuses on aesthetic plastic surgery, especially in breast surgery.

Beyond his clinical and administrative commitments, Dr Wu is also a prolific clinician who shared his broad expertise ranging from microsurgical reconstruction to breast surgery through book chapters, peer-reviewed papers and conference presentations. He continued to be an avid contributor at international conferences despite his busy private practice till this day.
